

- Main Entities**
- 1. Member
  - 2. Product
  - 3. Reviews
  - 4. Order
  - 5. Payment

- Assumptions**
- 1. Sellers may not upload any products (happens at first)
  - 2. Order requires only one payment,
  - 3. Considered Customer generalization as Optional Or for smoother DB implementation
  - 4. There can be no reviews for a product
  - 5. Each Product is sold by one seller.
  - 6. There is only one contact number for members (not a mutli valued attribute)
